Weekly Work Report

Week No. 3 June 24, 2024 - June 28, 2024

Name: **Chegyem, Roger Jr. H.**

Company: **Department of the Interior and Local Government**

Detailed Time Record:

Date (Day)	Actual Work Times	Hours Rendered	Work Accomplishment
June 24 (Monday)	8:00AM - 5:00PM	8 hrs	In the morning, I implemented the flipbook functionality to the source code that was provided to us using turnJS and dearFlip API. In the afternoon, I tried to improve the GUI for user-friendly design.
June 25 (Tuesday)	8:00AM - 5:00PM	8 hrs	I continued to modify the GUI on the landing page. I added a JavaScript code in order for sessions in the classes webpage to load one at a time. This is done in order to prevent users from viewing other sessions while not done with the current one.
June 26 (Wednesday)	8:00AM - 5:00PM	8 hrs	In the morning I modified the GUI for viewing classes. I did this by modifying the CSS and added a function in the user_control.js in order to avoid directly adding a function in the HTML. In the afternoon, I fixed the merge issues with the Calendar functionality that was made by Elishah Ordoña to be compatible with my version of the source code.
June 27 (Thursday)	8:00AM - 5:00PM	8 hrs	In the morning, I modified the navigation side bar to include a landing page and improved its design. In the afternoon, I inspected the user landing page and teacher user interface for future implementations.
June 28 (Friday)	8:00AM - 5:00PM	8 hrs	In the morning, I addressed missing components for loading Flipbook APIs such as the icons for navigation and sound effects. In the afternoon, I did a continuation of the GUI for session viewing and inspected the activity submission to implement the progress bar and session gating.
Total work-hours rendered		40 hrs	
TOTAL work-hours (<u>beginning</u>)		64 hrs	
TOTAL rendered so far (<u>ending</u>)		104 hrs
